You have received a request for an X-ray examination.

Book an appointment online at ajanvaraus.hus.fi or by calling the HUS Medical Imaging Center’s centralized appointment booking service, tel. 09 471 80900.

The examination usually takes 15–30 minutes. The radiology department also radiographs emergency patients which may prolong the waiting time. You should set aside 1 hour for your visit.

**Preparation for examination**

Remove any jewellery and piercings from the neck and face region before the examination. You can eat and drink normally before the examination.

**Examination**

The machines use X-rays to take cross-sectional images of the subject. During the examination you will be standing or sitting down. The examination is painless. During the examination you must be completely still because movement makes the images blurry. The radiographer will be able to talk to you, hear and see you during the examination.

**After the examination**

Dentist in charge of your care will inform you of the results of the examination. If you have not already been booked for an appointment or for a phone consultation, please contact the unit treating you in order to obtain the results.

**Other things to note**

Please take your health insurance card (Kela card) or identity card with you.

A separate fee will be charged for examinations which have not been cancelled.

**Contact details and how to find us**

Surgical Hospital, X-Ray Unit, Kasarmikatu 11–13, Helsinki

Outpatient Clinic's X-ray unit, 1st Floor, entrance U.
