

Ultrasound of the lower limb veins in Hyvinkää Hospital

Instructions for examinations performed by referral from Keusote health centers (Hyvinkää, Järvenpää, Mäntsälä, Nurmijärvi, Pornainen, Tuusula).

The examination uses an ultrasound device to detect blockages in the lower limb veins.

The ultrasound examination does not cause pain nor use any radiation.

The examination is performed by a radiologist, or a sonographer, who is a radiographer with specific training.

Please reserve approximately an hour for your visit.

The examination usually lasts about 20 minutes.

Patients who need urgent examinations may be examined before you.
