

How to order a copy of an image

You can order a copy of the images of your imaging examinations on DVD or on a memory stick. Picture viewer will also be stored on the disk. **The viewer works on Windows operating systems** (95, 2000, XP, 7 and 10). If you want to use the images viewer on an Apple computer, order a separate DVD from the Meilahti X-ray Unit.

The order can be placed by providing this form to any X-ray Unit within HUS Medical Imaging Center or by posting the form to any of the units listed to the right.

Should the orderer be someone else than the patient or his/her guardian, a free-form letter of authority, signed by the patient is also required.

I wish to have my medical images on:

DVD

USB drive

I want that the image viewer works also with Apple (order from the Meilahti X-ray Unit)
